- Git
- Sass / Less
- HTML / CSS

EDUCATION

General Assembly
2018
Web Development Immersive

Wellesley College
2009 – 2013
B.A., Cognitive & Linguistic Sciences

EXPERIENCE

SOFTWARE ENGINEER   **LOGICMANAGER**

March 2020 – Present

Front End
- Contribute to the front end development of LogicManager's risk-management SaaS product using React, Redux, and Typescript:
  - Create reusable React components that provide necessary functionality in multiple parts of the application.
  - Assist in the planning and design of new features proposed by the product team.
  - Review front end pull requests to ensure code meets quality standards and passes acceptance criteria.
- Write unit tests using Jest and Enzyme to confirm that front end code functions as expected when changes are made in the future.
- Train and assist junior developers in front end development tasks.
- Address front end bugs in the application as needed.

Scrum Master (May 2021 – July 2022)
- Led daily standups, making sure to follow up with any team members who were blocked from making further progress.
- Worked with our team's product manager to ensure stories lined up for future sprints were fully developed so our team could properly estimate points during sprint planning.
- Led sprint retrospectives, taking note of common themes and making action items that our team could take on to improve our next sprint.
- Facilitated sprint planning so our team accepted an appropriate amount of work based on the team's ability and availability during the sprint.

ASSOCIATE SOFTWARE ENGINEER   **LOGICMANAGER**

January 2019 – March 2020

WEB DEVELOPMENT IMMERSIVE   **GENERAL ASSEMBLY**

July 2018 – October 2018

General Assembly's Web Development Immersive program is a 12-week career accelerator that focuses on full stack web development using the latest technologies. Projects completed as part of this bootcamp can be seen on my personal website: catherineguo.com
